Re: Response to Notice of Violation dated August 10, 2026  
MZX Tech LLC — West Parcel (former Southaven Municipal Training Center) - Stormwater  
Southwest corner of Stanton Road South and Tulane Road  
Southaven, DeSoto County, Mississippi  
**Agency Interest No. 12592 | ENF20260002 | Coverage No. MSR109658**

Dear Ms. Clark:

MZX Tech LLC received the Notice of Violation dated August 10, 2026, and the attached Northern Regional Office memorandum. This letter provides the information requested: (1) measures taken in response to the matters identified in the Notice, and (2) a schedule for remaining work.

## **Measures taken (1)**

MZX holds Large Construction coverage MSR109658 for the existing campus. A major modification to add the west parcel remains pending with MDEQ, including the modified Storm Water Pollution Prevention Plan. MZX is coordinating with MDEQ toward issuance of modified coverage and will implement the modified coverage and updated SWPPP promptly upon issuance.

With respect to dust and sediment control observations referenced in the Notice and memorandum, MZX has implemented and is maintaining the following measures:

- Water truck operations at the start of each workday, every 1.5 hours following, and as needed to limit airborne dust leaving the work area;
- Wetting or covering of idle stockpiles;
- Additional structural BMP's in all areas identified in the memorandum.
- Maintenance of erosion and sediment controls and temporary stabilization as needed.

MZX will adjust these measures as site conditions require and as MDEQ provides further direction.

**Schedule for remaining work (2)**

| Action                                                                              | Projected Date of completion                                      |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Gain coverage under modified MSR109658                                              | Major modifications submitted 6/26/2026.<br>Pending MDEQ approval |
| Implement more robust dust suppression measures                                     | August 24, 2026                                                   |
| Review and address observations from the provided Memo; to include additional BMP's | August 24, 2026                                                   |

*Sincerely,*
