MDEQ performed a site inspection on September 14, 2026. During that visit, it was noted that Unit 57 and Unit 58 were physically present but confirmed to be no longer in operation. Site personnel explained that there are three steps in the retirement of a turbine - shutting down the turbine, air gap the turbine and physical removal of the turbine.

All other retired turbines were confirmed to have been removed from the site.

For clarification in future bi-weekly reports, the stage of retirement will also be reported to avoid any confusion.

Subject: CORRECTION - MZX Tech LLC - Bi-Weekly Turbine Removal Report #3 for Commission Order 7739 26

Dear MDEQ Staff,

This is a notification of a typo in Bi-Weekly Report #3.

It was stated that among the turbines removed,
Two (2) were FT8 MOBILEPAC turbines, Units 56 and 57.

This should be corrected to,
Two (2) FT8 MOBILEPAC turbines, Units 57 and 58.

Regards,
Shannon

Subject: MZX Tech LLC - Bi-Weekly Turbine Removal Report #3 for Commission Order 7739 26

Importance: High

In accordance with Mississippi Commission on Environmental Quality Order 7739 26, Paragraph 2.E.,

"MZX shall provide a report to MDEQ on a bi-weekly basis indicating all temporary turbines listed in Appendix A that have been deactivated within the preceding two-week period. These reports shall commence on the date this Agreed Order becomes fully executed,"

Turbines retired and removed in the previous two (2) week period include:

Two (2) Gen 6 TM2500 turbines, Units 13 and 14
Gen 7 TM2500 turbine, Unit 17
Gen 8 TM2500 turbine, Unit 18
Two (2) FT8 MOBILEPAC turbines, Units 56 and 57

If you have any questions, please do not hesitate to ask.
