Chet,

Thank you for forwarding this complaint to the Department. As you know, we are fully aware of this public concern. The comment period for CTC Property, LLC (xAl)(Colossus) has ended. We have had a public hearing and even extended the public comment period. The Department received over 1,700 responses and is closed to additional comments or complaints regarding the site at this time. The turbine engines that are on site are temporary "nonroad engines," not "stationary sources", that have operated for under 365 days. A draft permit for a synthetic minor source with LAER level controls is currently under review pending response to the public comments.

Since this complaint is outside of the public comment period it is the opinion of the Department that a response is not required. We will maintain these complaints on file.

[This EMAIL was not sent from a Shelby County Government email address. Please use caution.]

Good morning.

Please refer to the email chain for a complaint tip regarding Colossus, Memphis, TN allegedly operating without any air permit.

Please address appropriately and provide feedback.

Sincerely,

Chetan Gala

HQ LEAD NUMBER: FY25-332021-3714-CV

SUBJECT: Regional Tip and/or Complaint - Tennessee

FROM:

TO:

Alleged Violator's Name: COLOSSUS

Alleged Violator's Address: 3231 RIVERPORT ROAD

Alleged Violator's City: MEMPHIS

Alleged Violator's State: Tennessee

Alleged Violator's Zip: 38109

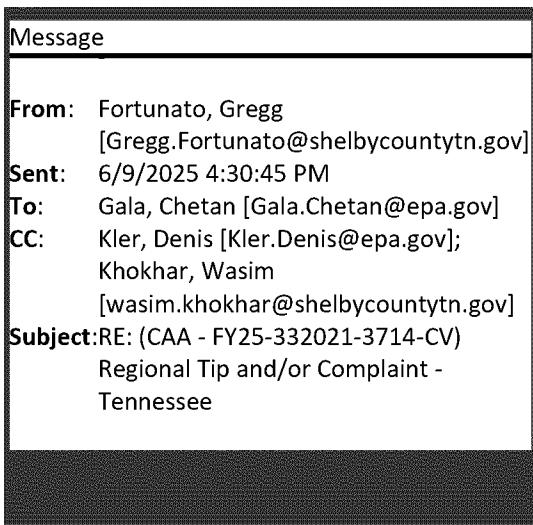

Alleged Violator's Latitude / Longitude: 35.059171 / -90.154546

Alleged Violator's FRS ID: 110071944714

Tip or Complaint: I urge whomever reads this to follow up on the situation thoroughly. I am an incredibly worried citizen who works in the energy sector. I have seen what it takes to acquire an air permit, and none of that work has been done at this facility. To construct a facility that is classified as a New Source Performance Standards the operator is REQUIRED to submit a Title 5 Air Permit. This Facility clearly and indiscriminately classifies as such. Yet, somehow this facility neither tracks their emissions, nor does it have any air permits whatsoever. Someone needs to dig into this as soon as possible. It is unacceptable to worsen the air quality of a community already plagued by poor air quality. I have included 2 images of the facility records (which are not populated whatsoever). they originally were recorded on the following website: <https://echo.epa.gov/detailed-facility-report?fid=110071944714#characteristics>.

Violation Still Occurring? Yes

State DEP/DEQ/DEM Notified? No

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

There is only one Colossus and there are no other proposed or existing xAI or CTC Property datacenters with power generation on site in Shelby County.

I wasn't sure if this one was the same facility for which I had forwarded another complaint/tip last week. This one had a different name and street address compared to the xAI one I forwarded sometime last week.

Thank you for responding back to me.

Sincerely,

Chetan Gala
